LIBRARY NEWS

The State Library of Iowa has announced that the Lake Park Public Library has met the conditions for state accreditation as outlined in "In Service to Iowa: Public Library Standards Sixth Edition."

Achieving accreditation requires a significant, ongoing local commitment to high quality library services. The Lake Park Public Library has been recognized for its efforts in all areas of library operations including governance and funding, staffing, library collection, services, public relations, access, and facilities. The accreditation is valid through June 30, 2020.

"The director and board of trustees of the Lake Park Public Library and the city of Lake Park are to be commended for this achievement and their commitment to excellence in public library services for their community," said State Librarian Michael Scott.

Of Iowa's 544 public libraries, 349 – including the Lake Park Public Library – are accredited. Iowa's accredited public libraries are recognized for being responsive to their communities and for exhibiting excellence in their provision of library services.

Congratulations and Thank You to Diane, Pam and the Library Board for all your hard work!!!
