Rehabilitation and Healthcare Center

We are writing to inform you of some new and exciting changes taking place at our facility. As you may know, we recently changed the name of our facility to “Pearl Valley Rehabilitation and Healthcare Center” to reflect the changes in our overall resident care and community outreach initiative under our new management team. As always, we are located at 1304 S. Market St. and we are proud to continue to offer short term rehabilitation and long term care along with our increasing scope of services. Our new management team has begun to make changes far beyond the superficial name change; they’ve started to revolutionize the overall operations of the facility with the primary focus being patient care. As a facility, we truly strive for excellence and a higher quality of life for all of our current residents as well as future residents. We already feel change in the air and we truly believe that these changes will not only continue to have a positive effect on our residents but will allow us to better serve the needs of our community at large. Please feel free to contact Cathy Birkeland, our administrator, at any time if you have any questions and /or if you would like to schedule a tour.

Waste Management has requested that 55 gal drums not be used for recycles. These containers are too large for them to be lifting.

We would request that you place garbage containers at the end of your driveway and avoid putting them in the street, especially during snow removal. Once garbage has been picked up the carts need to be moved back to your house NOT left at the curb.

Thank you for your help!!!
