

## SAFETY TIPS

Have you seen me?  
If not please dig me out  
of the snow or else I will  
stop regulating and you  
will be without heat!

- Snow and ice can damage or block natural gas meters and exhaust vents for appliances. Chimneys and vents on the roof or side of a building must be clear to allow proper venting which prevents equipment malfunction or accumulation of **carbon monoxide**.
- Install carbon monoxide alarms and carefully follow the mfg. directions for operation, placement and maintenance. **Keep your family safe get a CO detector installed.**
- Know the warning signs of CO poisoning. CO is a deadly, colorless and tasteless gas. Signs of CO poisoning include dizziness, shortness of breath, headaches, confusion, nausea and fainting.
- Do you smell the odor of rotten eggs? Do you hear hissing or whistling sounds around gas appliances or meter? These may be signs of a natural gas leak. Contact your local utilities.
