

### Monthly Newsletter

This newsletter was designed to keep residents informed of announcements and upcoming events. If you have information you would like included in the newsletter, please call or stop by City/Utility office by the 20<sup>th</sup> of the month. It is not however a place for individual business advertisement. We welcome any suggestions you may have on what you would like to see in the newsletter.

Before you dig on your property, you must call Iowa One Call (it's the law in Iowa). This free service will notify the utilities to mark the location of underground lines. You must call 48 hours in advance of your project, not counting weekends or holidays. To file a locate request call: 811 or 1-800-292-8989 or [www.iowaonecall.com](http://www.iowaonecall.com)

### Spring Maintenance

Check your drainage slope and make sure the ground slopes away from your foundation so rainwater does not flow into your basement.

With spring comes melting and lots of water. Per City code, no person shall be allowed to connect a roof downspout, sump pump, foundation drain, or other source of surface run-off to a building or building drain that is connected to the public sewer. **Check your sump pump to see where it drains.**

Inspect your roof. When it's safe to climb onto the roof, look for damp spots or cracks in the shingles that may need to be repaired.

Clean and sharpen garden tools and get your mower blades sharpened.

Recalk around your doors and windows and repair the glazing around exterior windows.

The Lake Park Fire Department will hold their annual omelet feed on April 2<sup>nd</sup> from 10:30am-1:00pm. This is a freewill donation and funds are used to purchase and update equipment. Be sure to come out and support our local fire department.
